Ok, thanks. Will it be possible for me to get a report daily on ERRS expenditures?

Also, we are submitted a request to Headquarters for Region 6, 8, and 9. Can you give me an ERRS costs estimate through Sept. 30, 2015? By 4 pm today?

Can you tell me what ERRS daily burn rate is now?

They activated ERRS on Sunday with the emergency task order for \$200,000. I am working on adding an additional \$300,000 to the task order

Yes, if we are activating ERRS then I still need it. Please send it to my mailbox daily.

Thanks for all your help.

Hi Jo Ann and Wil,

If we end up activating ERRS as well as START (which I believe will happen today if we haven't already done so), it would help us in the IMT if both contractors submitted their financial information in a similar format. I will see if I can find an example of what ERRS submitted during one of our previous events. But basically it is information submitted by :

TDD or TO

Amount obligated per TDD or TO

Amount expended today

Amount expended to date

Burn rate as of today

Jo Ann, am I forgetting anything?

Thank you both so much for your help.
